AS "TO EXAMINE THOSE PLANS AND PREPARATIONS RELATED TO MAKING THE 1984 SUMMER GAMES A SAFE AND SECURE OLYMPICS AND TO RECOMMEND HOW FEDERAL INVOLVEMENT IN SECURITY MATTERS SHOULD BE MANAGED." BECKWITH REFERS TO HIS "STATEMENT OF WORK," A COPY OF WHICH LOS ANGELES RECEIVED. THIS STATEMENT OF WORK, AS WELL AS THE ABOVE-DESCRIBED TASK, IS MUCH BROADER IN SCOPE THAN THE OBJECTIVE IDENTIFIED BY FBIHQ IN PREVIOUS COMMUNICATIONS CONCERNING BECKWITH'S VISIT.

BECKWITH ADVISES THT HE AND HIS COLLEAGUES WILL SPEND MOST OF THEIR TIME WITH THE SECURITY PLANNING COMMITTEE, THE INTEGRATED PLANNING GROUP, AND THEIR SUB COMMITTEES. HE ALSO PLANS TO TOUR THE VENUE LOCATIONS. HE EXPRESSED A DESIRE TO MEET WITH SAC LOS ANGELES AND OBTAIN HIS VIEWS ON OLYMPIC SECURITY, ON APRIL 28, 1983.

ON APRIL 21, 1983, [REDACTED] A MEMBER OF SAS, TELEPHONICALLY ADVISED LOS ANGELES THAT HE AND [REDACTED] [REDACTED] WILL ARRIVE IN LOS ANGELES ON APRIL 25, 1983, AND THAT BECKWITH PLANS TO ARRIVE ON APRIL 27, 1983. [REDACTED] REQUESTED PERMISSION TO ADDRESS THE SECURITY PLANNING COMMITTEE SESSION

SYNOPSIS: This memorandum discusses a briefing to be given to Colonel Charles Beckwith, U.S. Army (retired) at FBIHQ on 6/2/83. The briefing will cover Olympic security and planning in general and will concentrate on three specific areas: Intelligence, Communications, and Emergency Response. The Intelligence discussion will focus on the flow of information as it comes to the FBI, and how it will be coordinated in Los Angeles at the Anti-Terrorist Operations Center (ATOC) and distributed to those having a need for it. Manpower requirements, as known to date, are discussed.

The area of Communications will be handled at the briefing by Technical Services Division (TSD) representatives, and is not covered in the memorandum.

12 JUN 8 1983

The briefing will then cover Emergency Response, including the Los Angeles plan for use of Emergency Response Teams (ERT). The make-up and responsibilities of the ERT are discussed, along with some of the problems still being worked on, including the use of the Hostage Rescue Team (HRT). The different threat levels involving use of ERT and/or HRT are reviewed and summarized.

DETAILS: On 6/2/83, Colonel Charles Beckwith, U.S. Army (retired) will visit FBIHQ and receive a briefing regarding Olympic security and planning as it stands at the present time. Colonel Beckwith is making an assessment of Olympic security planning to date, and will be reporting his findings to the Department of Defense (DOD) and to the White House. The following are items which will be discussed with Beckwith during this briefing:

1. Intelligence
2. Communications
3. Emergency Response

It should be remembered that all information regarding Intelligence, Communications and Emergency Response, as contained in this memorandum and as presented at this briefing, does not represent the final proposal or plan as presented by the FBI. All statistics and representations are subject to change, and are in fact changing as planning goes ahead for the Olympics, and as resources become known and/or available.

INTELLIGENCE

The 1984 Summer Olympics will open in Los Angeles on 7/28/84, with the closing ceremonies scheduled for 8/12/84. The games are expected to attract approximately 12,000 athletes, together with team support personnel. There will be additional foreign visitors and officials from every participating nation. The games will consist of 23 sporting events to be held in eight cities located in three counties throughout Southern California.

RE: BRIEFING REGARDING
OLYMPIC SECURITY AND

COLONEL CHARLES BECKWITH,
U.S. ARMY (RETIRED) ON

b6
b7C

It is anticipated that the FBI will acquire national security related information already classified or warranting classification, which will pertain to terrorist matters of interest to Federal (other than the FBI), state and local law enforcement officials who have various responsibilities in connection with the 1984 Olympics. The FBI will disseminate intelligence information to these agencies when citizens, foreign officials, and/or property are threatened by force or violence.

Information received from either FBI sources or other agencies will only be disseminated after it is sanitized. Law enforcement officers assigned to the ATOC will be cleared for ~~"Top Secret,"~~ but will relay only unclassified information to their parent organizations.

If classified information received by the FBI requires that immediate action be taken, every effort must be made to ensure that lines of communication are maintained with the originator so that no action is taken by law enforcement personnel at the Olympics without first consulting with the originator.

FBI Legal Attaches providing information from foreign services will determine at the outset whether or not the particular service would object to their information (either as supplied or appropriately sanitized) being furnished to law enforcement agencies other than the FBI, if the information is required by those agencies to carry out their law enforcement functions. The FBI wishes to avoid, insofar as possible, being in receipt of intelligence information which is needed to prevent damage to human life or property, but which is classified because of its innate sensitivity or because it originated with a foreign service.

Our Los Angeles Office has advised that the Intelligence Subcommittee of the Olympic Security Planning Committee has agreed to a three level operation for handling intelligence. The ATOC, previously mentioned, will be located in the Los Angeles Office of the FBI. The ATOC will sanitize information for dissemination in an unclassified form to all users of the information including the Field Intelligence Coordination Center (FICC) made up of all law enforcement agencies.
